

Table of Contents

1 Introduction and Background

1.1	Overview of Watershed Planning	1-1
	1.1.1 Planning Objectives & Scope	1-1
	1.1.2 Legal Basis for Watershed Planning.....	1-1
1.2	Description of WRIA 35 Planning Areas	1-2
	1.2.1 Planning Area Boundaries	1-2
	1.2.2 Planning Topic Opportunities	1-4
	1.2.3 WRIA and Implementation Areas	1-5
1.3	Relationship to Other Water Resource Programs and Plans.....	1-16
	1.3.1 Salmon Recovery and Subbasin Plans	1-19
1.4	Conformance with SEPA.....	1-21
1.5	Plan Limitations	1-22

2 Planning Process

2.1	Initiating Governments	2-1
2.2	Planning Unit Mission and Participants.....	2-1
2.3	Planning Process	2-2
	2.3.1 Planning Goals	2-2
	2.3.2 Planning Elements	2-3
	2.3.3 Review of Existing Data	2-7
	2.3.4 New Studies Performed for Watershed Plan	2-8
2.4	Public Involvement Process.....	2-14

3 Key Planning Elements by Implementation Area

3.1	Introduction.....	3-1
	3.1.1 Recent Events.....	3-1
	3.1.2 Instream Flow Negotiations.....	3-1
	3.1.3 Rural Population Assessment	3-1
3.2	Asotin Creek Implementation Area	3-3
	3.2.1 Historical, Current and Ongoing Watershed Activities	3-3
	3.2.2 Water Quantity.....	3-6

3.2.3	Instream Flow	3-7
3.2.4	Water Quality.....	3-10
3.2.5	Aquatic Habitat	3-11
3.3	Middle Snake Mainstem Implementation Area	3-14
3.3.1	Historical, Current and Ongoing Watershed Activities	3-14
3.3.2	Water Quantity.....	3-16
3.3.3	Instream Flow	3-17
3.3.4	Water Quality.....	3-20
3.3.5	Aquatic Habitat	3-22
3.4	Pataha Creek Implementation Area	3-24
3.4.1	Historical, Current and Ongoing Watershed Activities	3-24
3.4.2	Water Quantity.....	3-27
3.4.3	Instream Flow	3-28
3.4.4	Water Quality.....	3-31
3.4.5	Aquatic Habitat	3-32
3.5	Tucannon River Implementation Area.....	3-34
3.5.1	Historical, Current and Ongoing Watershed Activities	3-35
3.5.2	Water Quantity.....	3-38
3.5.3	Instream Flow	3-39
3.5.4	Water Quality.....	3-42
3.5.5	Aquatic Habitat	3-45
3.6	Grande Ronde Implementation Area	3-49
3.6.1	Historical, Current and Ongoing Watershed Activities	3-49
3.6.2	Water Quantity.....	3-52
3.6.3	Instream Flow	3-53
3.6.4	Water Quality.....	3-56
3.6.5	Aquatic Habitat	3-57

4 General Strategies and Tools

4.1	Strategies and Tools for Water Supply Issues	4-2
4.2	Strategies and Tools for Instream Flow Issues	4-4
4.3	Strategies and Tools for Surface Water Quality Issues	4-6
4.4	Strategies and Tools for Groundwater Management Issues	4-9
4.5	Strategies and Tools for Groundwater Quality Issues	4-10
4.6	Strategies and Tools for Aquatic Habitat Issues	4-12
4.7	Environmental Considerations for Applying the Strategies and Tools	4-16

5 Basin Wide Management Objectives within WRIA 35

5.1 Introduction..... 5-1
 5.2 Basin-wide Management Objectives within WRIA 35 5-1

6 Implementation Area Strategies

6.1 Asotin Creek Implementation Area planning Objectives and Actions..... 6-1
 6.2 Middle Snake River Implementation Area Planning Objectives and Actions..... 6-13
 6.3 Pataha Creek Implementation Area Planning Objectives and Actions..... 6-23
 6.4 Tucannon River Implementation Area Planning Objectives and Actions 6-31
 6.5 Grande Ronde Implementation Area Planning Objectives and Actions..... 6-42

7 Plan Implementation Considerations

7.1 Introduction..... 7-1
 7.2 Plan Adoption Process and Resulting Obligations 7-1
 7.3 Grant Funding for Implementation Phase..... 7-2
 7.4 Overall Coordination of Plan Implementation..... 7-3
 7.4.1 Detailed Implementation Planning 7-6
 7.5 Implementation Actions by Individual Organizations 7-10
 7.6 Funding Strategy 7-11
 7.7 Monitoring and Adaptive Management 7-12
 7.7.1 Validation Monitoring 7-13
 7.7.2 Implementation Monitoring 7-13
 7.7.3 Effectiveness Monitoring..... 7-13
 7.7.4 Adaptive Management Implementation Considerations..... 7-13
 7.8 Public Involvement for Plan Implementation 7-14
 7.8.1 Public Participation and Ongoing Education..... 7-14
 7.8.2 Funding for Public Involvement 7-16
 7.9 Future Plan Updates 7-16

Tables

1-1 Listed Fish Species in WRIA 35..... 1-5
 1-2 Relationship of Existing Programs to Watershed Planning..... 1-17

3-1	Asotin Creek Watershed Planning and Implementation Activities, 1980s-2005	3-5
3-2	Average Annual Volume Projection for Domestic Water Use in Asotin Creek Implementation Area	3-6
3-3	WRIA 35 Gauge ID Matrix for Asotin Creek Implementation Area	3-9
3-4	2004 TMDL and 303(d) Listing Status in the Asotin Creek Implementation Area ...	3-10
3-5	Average Annual Volume Projection for Domestic Water Use in Middle Snake IA ..	3-16
3-6	WRIA 35 Gauge ID Matrix for Middle Snake River Implementation Area	3-19
3-7	2004 TMDL and 303(d) Listing Status in the Middle Snake Implementation Area ..	3-20
3-8	Pataha Creek Watershed Planning and Implementation Activities, 1980s-Present....	3-25
3-9	Average Annual Volume Projection for Domestic Water Use in Pataha Creek IA ...	3-27
3-10	WRIA 35 Gauge ID Matrix for Pataha River IA	3-30
3-11	2004 TMDL and 303(d) Listing Status in the Pataha Creek Implementation Area ...	3-31
3-12	Tucannon River Watershed Planning and Implementation Activities, 1990s-Present	3-35
3-13	Average Annual Volume Projections for Domestic Water Use in Tucannon Rvr IA	3-39
3-14	WRIA 35 Gauge ID Matrix for Tucannon River Implementation Area.....	3-41
3-15	2004 TMDL and 303(d) Listing Status in the Tucannon River Implementation Area	3-42
3-16	Grande Ronde Watershed Planning and Implementation Activities, 1990s-2005	3-50
3-17	Average Annual Volume Projections for Domestic Water Use in Grande Ronde IA	3-52
3-18	WRIA 35 Gauge ID Matrix for Grande Ronde River Implementation Area	3-55
3-19	2004 TMDL and 303(d) Listing Status in the Grande Ronde Implementation Area .	3-56
4-1	Tools to Address Water Supply Issues	4-3
4-2	Tools to Address Instream Flow Issues	4-5
4-3	Tools to Address Water Quality Issues.....	4-7
4-4	Tools to Address Groundwater Management Issues	4-9
4-5	Tools to Address Groundwater Quality Issues	4-11
4-6	Tools to Address Aquatic Habitat Issues	4-13
6-1	Desired Future Habitat Conditions for Asotin Creek Expressed in Percent Restoration of Historical Conditions	6-5
6-2	Asotin Creek Implementation Area Actions.....	6-7
6-3	Desired Future Habitat Conditions for Deadman Creek (within the Middle Snake Implementation Area) Expressed in Percent Restoration of Historical Conditions ...	6-16
6-4	Middle Snake River Implementation Area Actions.....	6-17
6-5	Pataha Creek Implementation Area Actions.....	6-25
6-6	Desired Future Habitat Conditions for the Tucannon River Expressed in Percent Restoration of Historical Conditions (Final SRSRP, Dec. 2006)	6-34
6-7	Tucannon River Implementation Area Actions	6-35
6-8	Grande Ronde Implementation Area Actions.....	6-45
7-1	Group A Water System.....	7-8

Exhibits

1-1	Regional Location Middle Snake Watershed (WRIA 35)	1-3
1-2	Asotin Creek Implementation Area	1-7
1-3	Middle Snake River Implementation Area	1-9
1-4	Pataha Creek Implementation Area	1-11
1-5	Tucannon River Implementation Area.....	1-13
1-6	Grande Ronde River Implementation Area.....	1-15
2-1	Project Site Overview	2-10
2-2	Site 1	2-11
2-3	Site 2	2-12
3-1	Middle Snake Watershed (WRIA35) 2007.....	3-2
3-2	Existing Conservation District Projects in the Asotin Implementation Area	3-4
3-3	Asotin Creek Implementation Area Instream Flow Management Points 2007	3-8
3-4	2004 303(d) Listed Waterbodies in Asotin Creek Implementation Area	3-11
3-5	Asotin Creek Implementation Area MSA/mSA, Priority Protection and Restoration Areas 2007	3-12
3-6	Existing Conservation District Projects in the Middle Snake Implementation Area..	3-15
3-7	Middle Snake River Implementation Area Instream Flow Management Pts 2007. ...	3-18
3-8	2004 303(d) Listed Waterbodies in Middle Snake River Implementation Area	3-22
3-9	Middle Snake River Implementation Area MSA/mSA, Imminent Threats, and Priority Protection and Restoration Areas 2007.....	3-23
3-10	Existing Conservation District Projects in the Pataha Implementation Area	3-26
3-11	Pataha Creek Implementation Area Instream Flow Management Points 2007	3-29
3-12	2004 303(d) Listed Waterbodies in the Pataha Creek Implementation Area	3-32
3-13	Pataha Creek Implementation Area MSA/mSA, Priority Protection and Restoration Areas 2007	3-33
3-14	Existing Conservation District Projects in the Tucannon Implementation Area.....	3-37
3-15	Tucannon River Implementation Area Instream Flow Management Points 2007	3-40
3-16	2004 303(d) Listed Waterbodies in the Tucannon River Implementation Area.....	3-43
3-17	Tucannon River Implementation Area MSA/mSA, Imminent Threats, and Priority Protection and Restoration Areas 2007.....	3-47
3-18	Grande Ronde River Implementation Area Existing Conservation District Projects.	3-51
3-19	Grande Ronde Implementation Area Instream Flow Management Points 2007	3-54
3-20	2004 303(d) Listed Waterbodies in the Grande Ronde Implementation Area	3-56
3-21	Grande Ronde River Implementation Area MSA/mSA, Imminent Threats, and Priority Protection and Restoration Areas 2007.....	3-58
6-1	Asotin Creek Implementation Area Actions Summary 2007	6-6
6-2	Middle Snake River Implementation Area Actions Summary 2007	6-22
6-3	Pataha Creek Implementation Area Actions Summary 2007	6-30

6-4 Tucannon River Implementation Area Actions Summary 2007..... 6-41
6-5 Grande Ronde River Implementation Area Actions Summary 2007 6-48
7-1 Middle Snake Watershed Plan Organization and Implementation 7-5
7-2 Regional Planning Boundaries April 2006 7-7

Appendices

- A WRIA 35 SEPA Review
- B Strategies and Tools for Water Supply Issues
- C Instream Flow Management Recommendations
- D Groundwater Management
- E Responsible Agencies for Implementation Actions
- F Funding Sources
