Commissioner Hicks called the meeting to order and opened the Public Hearing for the 2010 Budget at 5:30 p.m.

Staff Input

The manager provided an overview of the 2010 Budget resources and expenditures. The Manager stated that the reduction of operational expenses and capital improvement projects in 2008 and early 2009 will result in a balanced budget for yearend 2009. The reductions were accomplished without compromising water quality, customer service or overall operations.

The manager reviewed the resources that compromise PUD revenue. He stated that the rate schedule provides for a 5% consumptive rate increase from \$0.85 per unit to \$0.89 per unit. The manager stated that this equates to approximately \$0.80 per month for the average customer. He stated that installation charges will also increase 5%.

The manager reviewed specific expenditures for 2010 such as the replacement and retrofitting of meters with radio automated meter reading capability, the purchase of a vactor trailer with a valve turning device, the updating of the mapping system to GIS and the payoff of a loan for purchase of a backhoe and the payoff in 2010 of our Public Employee Retirement System buyback. He stated that an employee will be added midyear once the mapping program update is near completion.
